Dear Parent/Guardian:

Urban Pathways student support department strives to provide exceptional service to students, parents, faculty and community stakeholders. It consists of the school counselor, Ms. Story, and school social worker, Ms. Barkley. Our primary goal is to facilitate a positive school climate equipped to meet the unique needs of all student scholars which will allow them to become better learners through a holistic approach by providing a comprehensive program that addresses their social, emotional, personal, developmental and academic needs. In order to develop well rounded individuals who are life-long learners capable of demonstrating critical thinking and problem solving skills, students will meet with the school counselor and social worker through classroom discussions, small groups, and individually as needed. Collaboration with parents, teachers, and outside organizations may also be utilized to support the growth and overall wellbeing of your child. Support provided can be therapeutic but our role is not to diagnose or provide therapy. We are a resource to assist students in overcoming some issues that may be impacting their school performance, however, we will be happy to provide a list of resources and providers upon request.

If you have any concerns regarding Support Services or have any specific concerns regarding your child that you wish to address, please don't hesitate to contact Ms. Story directly.

Sincerely,

Support Service Team
